It was necessary to make the city as attractive with parks, lawns, boulevards and parks as possible. Belleville needs to make it a beautiful city. **Canadians High****In Transportation**

Captain W. E. Schuster Speaks on Transportation at Rotary Noon Luncheon.

Captain Schuster spoke for five minutes at the conclusion of the Rotary luncheon Monday upon transportation, the subject being, "Why Canadians are recognized in transportation matters."

The principal feature brought out by Captain Schuster was the fact that the Canadian Pacific Railway is a world famous transportation organization, that the year is a household name in every civilized part of the world, that it is a great compliment to Canadians to know that the executive officers of the world's most important transportation system are located in the city of Montreal, and directed by Canadians.

Captain Schuster also referred to the fact that in the city of Chicago the Grand Trunk Railway system is directly in competition with such great American trunk lines as the Chicago, Milwaukee &amp; St. Paul, the Great Northern, the Illinois Central, the Chicago &amp; North Western, and that the Grand Trunk owns the best equipped freight terminal in the city of Chicago. It is a great compliment to the Grand Trunk Railway that in the third largest city of the United States they should have several new and first terminal facilities, which place them in a formidable position respecting traffic matters in Chicago.

A resolution was passed urging the provincial Department of Highways to make immediate steps to have a permanent system of subject or concrete applied to the main provincial highway between Belleville and Trenton.

W. R. Dwyer occupied the chair.

**Boy Tells of Seeing Woman Murdered**

Mentorial Victim's Supposed Mother Identified by Father

Montreal, Feb. 7.—The body of the young woman struck down by an assassin in the hands of an unknown man Friday night on Prospect street West, was yesterday identified by the father of the girl, Joseph M. Malherbe, as that of his daughter, Adeline.

Mr. Malherbe resided on Clarendon avenue, near the scene of the murder. He told the police his daughter had been speaking the evening with friends and was apparently returning home about 10:30 when killed. The police are of the opinion the murder was the work of a traitor.

John Norris, a 15-year-old boy, heard the scream of the murdered girl, and also saw her fall in the sidewalk. Healing to her assistance, he saw a man run away. On the sidewalk of the girl, lying face downwards in a pool of blood, was a small object which was taken from the scene.

The following resolution, adopted by the Chamber of Commerce, was unanimously endorsed.

The Chamber of Commerce, of Belleville, having in view the heavy demand of traffic on the new general highway, in the suburban district about Belleville, would respectfully urge upon the Minister of Public Works and the Department of Highways for the future the pressing necessity for taking immediate steps to have a permanent system of asphalt or concrete applied to the main provincial highway between the city of Belleville and the city of Trenton and between the city of Belleville and the city of Shawanaga.

The committee rose and reported.

## A SOLEMN REFERENDUM

If we took a nation-wide referendum on the question "what is the cleanest most nutritious breakfast cereal in the world, there is no doubt that the verdict would be in favor of Shredded Wheat Biscuit. It is something more than a breakfast cereal. It is a substitute for meat, eggs and potatoes for any meal, much more nutritious and costs much less.

Two Biscuits with hot milk make a warm, nourishing meal at a cost of a few cents—the most real food for the least money.

## Have You Any Broken Jewelry?

Pieces of jewelry, broken and stored away in a desk or dressing table drawer or jewel cabinet are useless to you.

Now that new things of the sort are more expensive than when these broken ones were bought, why not let us repair the broken ones so you can put them to use again?

Many a broken old pin or buckle or ring or bracelet could be repaired for a very low expense and made something that could not be duplicated today for a high price.

Bring in the contents of that box of broken jewelry and let us see what we can make out of it for you.

Gunmen had a big year in Toronto

This is a startling increase over statistics of 1919, when the total number of highway robberies was 100.

Highway robbery is running at a high average all year. Much of this class of crime came in epidemics and in several cases five to eight cases were recovered in one night. With the aid of stolen automobiles the gunmen were able to do their work and make

**Under Your Pillow at Night**

DO YOU ever wake up at night or on these cold, dark mornings and wish you knew the time? And doesn't it take almost your whole will-power to get up from your warm bed, turn on the light and try to read the time from its ordinary time-piece—your eyes agitated by the glare?

A Radiolite under your pillow—now known as the softly glowing Radiolite figures—and you know the time—scarcely aroused from your doze.

But that's only one use. Look at the little pictures on this page. You probably could add a dozen more from your own experience. Radiolites come in models adapted to special purposes: the Ten-in-One is a clock-watch for bureau or table by bed; the Midway Radiolite for women and girls; the Wrist Radiolite for nurses, soldiers, sportsmen; the Watchman, a jeweled Radiolite, a smart time-piece for business and professional men; the Maple Leaf Radiolite, an admirable model for boys and for men who do rough work of any kind.
